Selbstbeschreibung der CrossAsia-Datenbank: „CEIC Data“:

CEIC Data's Global Database contains over a million time series covering economies from the US and China to Vietnam, Bulgaria, and Chile. It covers key indicators such as GDP, GNP, FDI, and CPI as well as detailed, hard to find information on inflation, exports, and tourism. Built on the expertise of professionals on the ground in numerous emerging countries, CEIC Data offers users exclusive access to a knowledge store that will enable them to make only the smartest and most accurate assessments and decisions. The China Premium Database offers over 293,000 time-series records on macroeconomic, sector, industry and regional data dating back to 1949. The China Premium Database is available in both English and Chinese.
