**Beschreibung der CrossAsia-Datenbank:** „China Statistical Yearbooks Database (CNKI)：中国统计年鉴数据库":

**The database includes 632 titles of statistical yearbooks (of which about 150 are constantly updated) with all together 3777 volumes. They cover a wide range of industries and the whole as well as specific regions of the PRC. The earliest included datas go back to 1949. The interface currently allows browsing by industry, region or type of statistical yearbook as well as navigating the yearbooks by title of those most used or most recently updated. Data searches may be performed on the full text or confined to headings.**
