### Chinese Research Perspectives Online

**Subject:** Asian Studies  
The former *Chinese Academy of Social Sciences Yearbooks* have become part of the *Chinese Research Perspectives* series. The Chinese Research Perspectives series includes four research areas: Education, the Environment, Population and Labor, and Society. The selection of contributions covers developments in China of particular interest to a Western (non-Chinese speaking) audience and occasionally differs from the Chinese-language yearbooks. The selected materials continue to provide Western readers with firsthand insights into the discussions of China's top scholars on contemporary issues in their country.

The *Chinese Academy of Social Sciences Yearbooks* on Economy and Legal Development will not continue in the new *Chinese Research Perspectives* series
