Selbstbeschreibung der Datenbank „Digital Commonwealth Massachusetts Collections Online“:

Digital Commonwealth is a non-profit collaborative organization, founded in 2006, that provides resources and services to support the creation, management, and dissemination of cultural heritage materials held by Massachusetts libraries, museums, historical societies, and archives. Digital Commonwealth currently has over 180 member institutions from across the state.

This site, managed by the Boston Public Library, provides access to thousands of images, documents, and sound recordings that have been digitized by member institutions so that they may be available to researchers, students, and the general public.

Massachusetts cultural institutions may sign up for free digitization services from the Boston Public Library as part of the Library for the Commonwealth program (Massachusetts state budget line item 7000-9401).
