

Summer Semester 2026

Focal point Molecular Medicine

Molecular Immunology

Wednesday, 14:00 – 15:30 in HMA30

| Date | Topic | Lecturer |
|----------|--|---------------|
| 22.04.26 | Introduction | Peters |
| 29.04.26 | Innate Immunity | Plaza Sirvent |
| 06.05.26 | Antigen presentation & Tcells | Plaza Sirvent |
| 13.05.26 | Signal transduction in Immune cells I | Plaza Sirvent |
| 20.05.26 | Signal transduction in Immune cells II | Plaza Sirvent |
| 27.05.26 | Pentecost holidays | |
| 03.06.26 | Immunoregulation | Plaza Sirvent |
| 10.06.26 | Immunological methods | Plaza Sirvent |
| 17.06.26 | B-cell biology & Antibodies | Peters |
| 24.06.26 | Complement system | Peters |
| 01.07.26 | Allergies & Autoimmunity | Peters |
| 08.07.26 | Manipulation of the immune response | Knobloch |
| 15.07.26 | Infection and failure of host defense | Knobloch |
